

Procedural Lab Competency Assessment Checklist

Chapter 14: Pediatric Preparations

Supplies

- Calculator (basic)
- Pen
- Medication order in large, clear-plastic resealable bag
- CSP label in small, clear-plastic, resealable bag
- PF pediatric gentamicin 10-mg/mL vial
- PF 0.9% sodium chloride 10-mL vial (NS)
- 3-mL Luer-lock syringe × 2
- 10-mL Luer-lock syringe
- Regular needles (nonfilter, nonvented needles, either 18 or 19 gauge) × 3
- EEC vial, 10-mL
- Sterile syringe cap
- Sterile 70% IPA swabs, individually packaged × 4
- Tamper-evident, sterile, adhesive seal
- Aseptic cleaning wipes presaturated with an appropriate cleaning solution
- Transport vehicle (optional)
- Shoe covers
- Hair cover
- Face mask
- Beard cover (if appropriate)
- Sterile gown
- Sterile, foamed 70% IPA
- Sterile, powder-free gloves
- Horizontal laminar airflow hood
- Permanent, felt-tip marker
- Waste container
- Sharps container

Basic Instructions

- Perform any necessary calculations and then gather the supplies from the supply list.
- Once your instructor gives you permission to begin, garb in the proper order to the point that you would prior to washing your hands.
- Cleanse your hands and forearms with sterile, foamed 70% IPA and then don a sterile gown.
- Finally, don sterile gloves.

Note: For the purposes of this process validation, you will not perform hand-washing or hood-cleaning procedures.

Procedural Lab Competency Assessment Checklist

	Yes	No	NA
CSP Label Verification			
Compared med order to CSP label to verify accuracy of all information	☐	☐	☐
Dosage Calculation and Supply Determination			
Reviewed the CSP label to determine the desired concentration and volumes	☐	☐	☐
Reviewed the vial labels to determine the drug vial concentration and verify that drug and diluent are PF	☐	☐	☐
Correctly performed the mathematical dosage calculations	☐	☐	☐
Gathered the correct supply items	☐	☐	☐

	Yes	No	NA
Anteroom Preparations			
Wiped down transport vehicle and all supply items properly	☐	☐	☐
Donned aseptic shoe covers, hair cover, face mask, and beard cover (if appropriate) in the proper order	☐	☐	☐
Donned sterile gown without contaminating it	☐	☐	☐
Clean Room Procedures and Preparation of a Pediatric Special Dilution			
Placed supplies in the proper area in the clean room	☐	☐	☐
Used sterile, foamed 70% IPA prior to donning sterile gloves	☐	☐	☐
Placed supply items in outer six-inch staging zone of hood	☐	☐	☐
Opened all alcohol swabs within the DCA of hood	☐	☐	☐
Swabbed the vials' rubber tops with sterile 70% IPA swab	☐	☐	☐
Maintained uninterrupted vertical airflow to the critical sites of all supply items throughout injection, withdrawal, and needle-removal procedures	☐	☐	☐
Did not touch the critical sites of the needle or syringe	☐	☐	☐
Did not touch the critical sites of vials without then reswabbing the sites before needle insertion	☐	☐	☐
Did not place any syringe onto the hood surface without first attaching a capped needle	☐	☐	☐
Did not place an unwrapped needle onto the hood surface at any time during procedure	☐	☐	☐
Used proper needle insertion technique into the vials	☐	☐	☐
Withdrew the proper volume from the vials	☐	☐	☐
Used proper technique to remove bubbles from syringe	☐	☐	☐
Placed items on the hood properly in preparation for a verification check by pharmacist or instructor	☐	☐	☐
Used correct solutions and repositioned items in the hood so that the syringes and EEC received uninterrupted airflow from the HEPA filter at all times during CSP procedures	☐	☐	☐
Used proper technique to vent air from EEC	☐	☐	☐
Used proper technique when removing the needle-and-syringe unit from vials	☐	☐	☐
Properly affixed the CSP label to the EEC	☐	☐	☐
Applied a tamper-evident, sterile, adhesive seal over the EEC vial top	☐	☐	☐
Disposed of sharps and nonsharps waste in appropriate receptacles	☐	☐	☐
Examined filled EEC for solution clarity	☐	☐	☐
Completion Activities Performed Upon Return to the Anteroom			
Dated and initialed the CSP label in the appropriate place	☐	☐	☐
Returned any remaining supplies to their proper locations	☐	☐	☐
Removed PPE according to standard procedures	☐	☐	☐
